SUMMARY

Frontend / MERN Developer with hands-on experience building responsive full-stack web applications using React.js, JavaScript, TypeScript, Node.js, Express.js, and MongoDB. Skilled in React Hooks, Context API, REST APIs, JWT authentication, Firebase/Firestore, CRUD operations, responsive Ul development, and frontend-backend integration.

EXPERIENCE

Technical Operations Engineer

Amazon **January 2020 - December 2025, Chennai**

- Built hands-on React.js experience through self-driven projects while working in Technical Operations.
- Monitored and supported internal systems to ensure stable application workflows and system reliability.
- Collaborated with development teams to troubleshoot production issues and identify root causes.
- Improved operational efficiency by documenting troubleshooting procedures and workflow improvements.

Support Engineer Intern

GUVI Geek Pvt Ltd **January 2018 - December 2019, Chennai**

- Provided technical support for web platforms and resolved application-related issues.
- Collaborated with internal teams to troubleshoot bugs and improve platform usability.
- Documented technical issues and solutions to support faster issue resolution.

PROJECT

Incident Portal

incidentportal.vercel.app/ • August 2026 - November 2026

- Built a full-stack incident management portal with role-based access for Admin, Support Agent, and Employee.
- Implemented JWT authentication, incident CRUD, assignment, search, filtering and pagination.
- Developed SLA tracking, overdue monitoring, dashboards and audit logs, and deployed on Vercel and Render.

Job Tracker App

job-tracker-2-0.vercel.app/ • July 2026 - September 2026

- Built and deployed a full-stack job tracking application using React, TypeScript, Node.js, Express and MongoDB.
- Implemented JWT authentication, protected routes, CRUD operations, search, filtering, and server-side pagination.
- Migrated the application from JavaScript to TypeScript and deployed the frontend on Vercel and backend on Render.

PreethiZign

preethizign.netlify.app/ • March 2026 - May 2026

- Developed a responsive handmade ecommerce website for real-world small business using React and Tailwind CSS.
- Implemented Firebase Authentication and CRUD-based admin dashboard using Firestore.
- Integrated Cloudinary for image uploads and dynamic product rendering with responsive product detail pages.
- Deployed on Netlify with GitHub integration for automatic builds and updates.

EDUCATION

PG Programme in Software Development

IIIT Bangalore (upGrad) • Bangalore • 2022

- Score: 88%.

Bachelor of Information Technology

M. Kumarasamy College of Engineering • India • 2019

- Score: 72%.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Hooks, Context API, React Router, Tailwind CSS, Responsive Design, GSAP, API Integration

Backend: Node.js, Express.js, REST APIs

Database: MongoDB Atlas, Mongoose, Firestore

Tools: Git, GitHub, Render, Netlify, Vercel, Cloudinary, Postman, Thunder Client
