SUMMARY

Frontend / MERN Developer with hands-on experience building responsive full-stack web applications using React.js, JavaScript, TypeScript, Node.js, Express.js and MongoDB. Skilled in React Hooks, Context API, REST APIs, JWT authentication, Firebase/Firestore, CRUD operations, responsive UI development and frontend-backend integration.

EXPERIENCE

Amazon | Technical Operations Engineer (2020 – December'25)

* Gained hands-on experience in frontend development using React.js through internal tools and self-driven projects.
* Monitored and supported internal systems to ensure stable application workflows and system reliability.
* Collaborated with development teams to troubleshoot production issues and identify root causes.
* Improved operational efficiency by documenting troubleshooting procedures and workflow improvements.

GUVI Geek Pvt Ltd | Support Engineer Intern (2018 – 2019)

* Provided technical support for web platforms and assisted users in resolving application-related issues.
* Collaborated with internal teams to identify bugs and improve platform usability.
* Assisted in troubleshooting web application problems and documenting resolutions.

PROJECTS

Incident Portal | React, TypeScript, Node.js, MongoDB, JWT, Render, Vercel - https://incidentportal.vercel.app/

* Built a full-stack incident management portal with role-based access for Admin, Support Agent and Employee.
* Implemented JWT authentication, incident CRUD, assignment, search, filtering and pagination.
* Developed SLA tracking, overdue monitoring, dashboards and audit logs and deployed on Vercel and Render.

Job Tracker App | React, TypeScript, Node.js, MongoDB, JWT, Vercel, Render - https://job-tracker-2-0.vercel.app/

* Built and deployed a full-stack job tracking application using React, TypeScript, Node.js, Express and MongoDB.
* Implemented JWT authentication, protected routes, CRUD operations, search, filtering and server-side pagination.
* Migrated the application from JavaScript to TypeScript and deployed the frontend on Vercel and backend on Render.

PreethiZign | React, Tailwind CSS, Firebase Authentication, Firestore, Cloudinary, Netlify - https://preethizign.netlify.app/

* Developed a responsive handmade ecommerce website for real-world small business using React and Tailwind CSS
* Implemented Firebase Authentication and CRUD-based admin dashboard using Firestore
* Integrated Cloudinary for image uploads and dynamic product rendering with responsive product detail pages
* Deployed on Netlify with GitHub integration for automatic builds and updates.

EDUCATION

IIIT Bangalore (upGrad) 2021 – 2022
PG Programme in Software Development Score: 88%

M. Kumarasamy College of Engineering 2015 – 2019
Bachelor of Information Technology Score: 72%

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Hooks, Context API, React Router, Tailwind CSS, Responsive Design, GSAP, API Integration

Backend: Node.js, Express.js, REST APIs, Firebase

Database: MongoDB Atlas, Mongoose, Firestore

Tools: Git, GitHub, Render, Netlify, Vercel, Cloudinary, Postman, Thunder Client

Auth & Concepts: JWT, Firebase Authentication, Protected Routes, CRUD, Async JavaScript
