SUMMARY

Frontend / MERN Developer with hands-on experience building responsive full-stack web applications using React, JavaScript, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, CRUD operations, responsive UI development, and frontend-backend integration.

EXPERIENCE

Amazon | Technical Operations Engineer (2020 – December'25)

- * Gained hands-on experience in frontend development using React.js through internal tools and self-driven projects.
- * Monitored and supported internal systems to ensure stable application workflows and system reliability.
- * Collaborated with development teams to troubleshoot production issues and identify root causes.
- * Improved operational efficiency by documenting troubleshooting procedures and workflow improvements.

GUVI Geek Pvt Ltd | Support Engineer Intern (2018 – 2019)

- * Provided technical support for web platforms and assisted users in resolving application-related issues.
- * Collaborated with internal teams to identify bugs and improve platform usability.
- * Assisted in troubleshooting web application problems and documenting resolutions.

PROJECTS

Job Tracker App | React, TypeScript, Node.js, MongoDB, JWT, Vercel, Render - <https://job-tracker-2-0-typescript.vercel.app/>

- * Built and deployed a full-stack job tracking application using React, TypeScript, Node.js, Express, and MongoDB.
- * Implemented JWT authentication, protected routes, CRUD operations, search, filtering, and server-side pagination.
- * Migrated the application from JavaScript to TypeScript and deployed the frontend on Vercel and backend on Render.

Wedding Invitation Website | React, Tailwind CSS, GSAP, Netlify - <https://myks-invitation.netlify.app/>

- * Built a responsive wedding invitation website with smooth scroll animations using GSAP and ScrollTrigger
- * Implemented interactive gallery, background music control, and improved mobile UX across devices
- * Deployed on Netlify with GitHub integration enabling automatic builds and updates (CI/CD)

PreethiZign | React, Tailwind CSS, Firebase Authentication, Firestore, Cloudinary, Netlify - <https://preethizign.netlify.app/>

- * Developed a responsive handmade ecommerce website for real-world small business using React and Tailwind CSS
- * Implemented Firebase Authentication and CRUD-based admin dashboard using Firestore
- * Integrated Cloudinary for image uploads and dynamic product rendering with responsive product detail pages
- * Deployed production-ready application on Netlify with GitHub CI/CD and environment variable configuration

EDUCATION

IIIT Bangalore (upGrad)

PG Programme in Software Development

2021 – 2022

Score: 88%

M. Kumarasamy College of Engineering

Bachelor of Information Technology

2015 – 2019

Score: 72%

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Router, Tailwind CSS, Responsive Design, GSAP, API Integration

Backend: Node.js, Express.js, Firebase

Database: MongoDB Atlas, Mongoose, Firestore

Tools: Git, GitHub, Render, Netlify, Vercel, Cloudinary, Postman, Thunder Client

Concepts: REST APIs, JWT Authentication, MVC Architecture, CRUD Operations, Protected Routes
